## Personal Information

**Address:** 13 Booth Road,  
Hartford,  
Cheshire,  
CW8 1RD

**DOB:** 04/11/1998  
**Mobile:** 07708076543  
**Email:** georgeleach123@gmail.com  
**Github:** <https://github.com/george-leach>

## Personal Profile

I am a 21 years old recent graduate from the University Of Hull and I have a driven and motivated attitude to do with everything in the computer science world, I do have a significant amount of educational experience doing computer science since I have been studying the subject for the past seven years from highschool to university . During my time at both college and university, I have managed to combine studying with part-time work, including a seasonal contract with B&Q and working at Sainsbury's .

I believe I am organised, resourceful and work well under pressure when needs be. I get on well with people from all walks of life and can adapt swiftly to take on fresh responsibilities and challenges. I enjoy working as part of a team to support each other, get a job done and deliver great results for customers and the people I work for.

I am happy to roll-up my sleeves and work flexibly where required to ensure that I complete any task in a professional and friendly manner.

## Education and Qualifications

**2017-2020**      **University of Hull**  
Computer Science (BSc)  
Grade 2:1

**2015-2017**      **Sir John Deane's College**  
A Levels: Computer Science, ICT

**2010-2015**      **Hartford High School**  
GCSEs: 11 GCSEs including English, Maths and Computer Science

### Functional Skills

The functional skills I have learnt throughout my education are as follows

C# - C++ - Python - Javascript - Agile Development - SQL databases - Team Working - Project Planning - .Net  
I am a quick learner and have learnt many different programming languages and I am happy to learn more if required .

## Work Experience

**Clarks:(July 2020 to Sept 5 2020)** Employed as a part-time sales assistant. This job provided me with the experience of having and meeting targets such as sales targets.

**B&Q : (July 1 to September 2018)** I was employed as a part-time customer services assistant and worked covering the checkouts and helping customers with enquiries and purchases. This was very much a front of house role and required flexibility to meet different challenges every day.

**Sainsbury's: (May 2016 - September 2017)** I joined Sainsbury's as a permanent employee working part-time in the busy bakery section. Although employed to work 16 hours, I regularly worked more hours as needed particularly over busy times such as Christmas. After gaining experience in the bakery, I often had the responsibility for opening up the bakery and making sure everything was prepared for when the store opened. A key element of my role was interacting with customers both at the bakery and across the store.

## Hobbies & Interests

I'm currently enjoying powerlifting after a long break, I also enjoy doing some programming to improve upon my skills and refine them further. In the field of computer science specifically I am interested in Swarm Intelligence since that was the chosen project for my honours stage.
